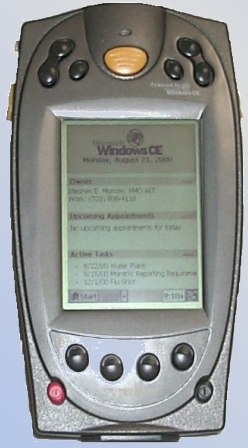
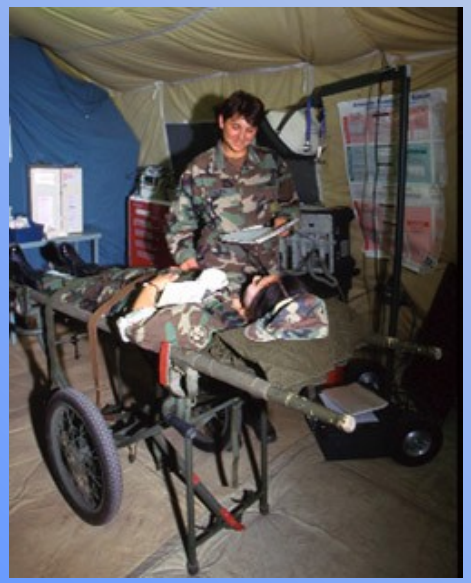
PEO Enterprise Information Systems



AFCEA - Belvoir
PEO EIS Industry Day



COL Tom Hogan
Project Manager
Enterprise Infostructure

Agenda

- Mission
- Functions
- Organizational Structure
- Schedule
- Project Budget
- Programs
  - Automatic Identification Technology (AIT)
  - Business Enterprise Systems (BES)
  - Defense Message System – Army (DMS-A)
  - Secure Electronic Transactions – Devices (SET-D)
  - Army Small Computer Program (ASCP)
  - Hazardous Substance Management System/Installation Support Module (HSMS/ISM)

Mission

CHARTERED IN FY 02

Design, develop, acquire, integrate, test and field a world class Information Technology Enterprise Infostructure for the U.S. Army within the POM. Form partnerships with the Army Staff, Network Enterprise Technology Command (NETCOM), Army Material Command (AMC), PEO, Command, Control, Communications Tactical (C3T) and industry to insure the Infostructure meets the warfighter's requirements, is affordable, robust and economically sustainable. The completed infostructure will directly support the Army's transformation into a network centric force.

PEO Enterprise Information Systems

Functions

Supporting Army's Transformation
into a Network-Centric Force

Command & Control Messaging, Directories

DMS

Enterprise S/W, H//W and Services

ASCP

Server Consolidations and OS Migration

BES

CAC, PKI, Biometrics

SET-D

Automated Logistics Technologies

AIT

Installation Support Applications

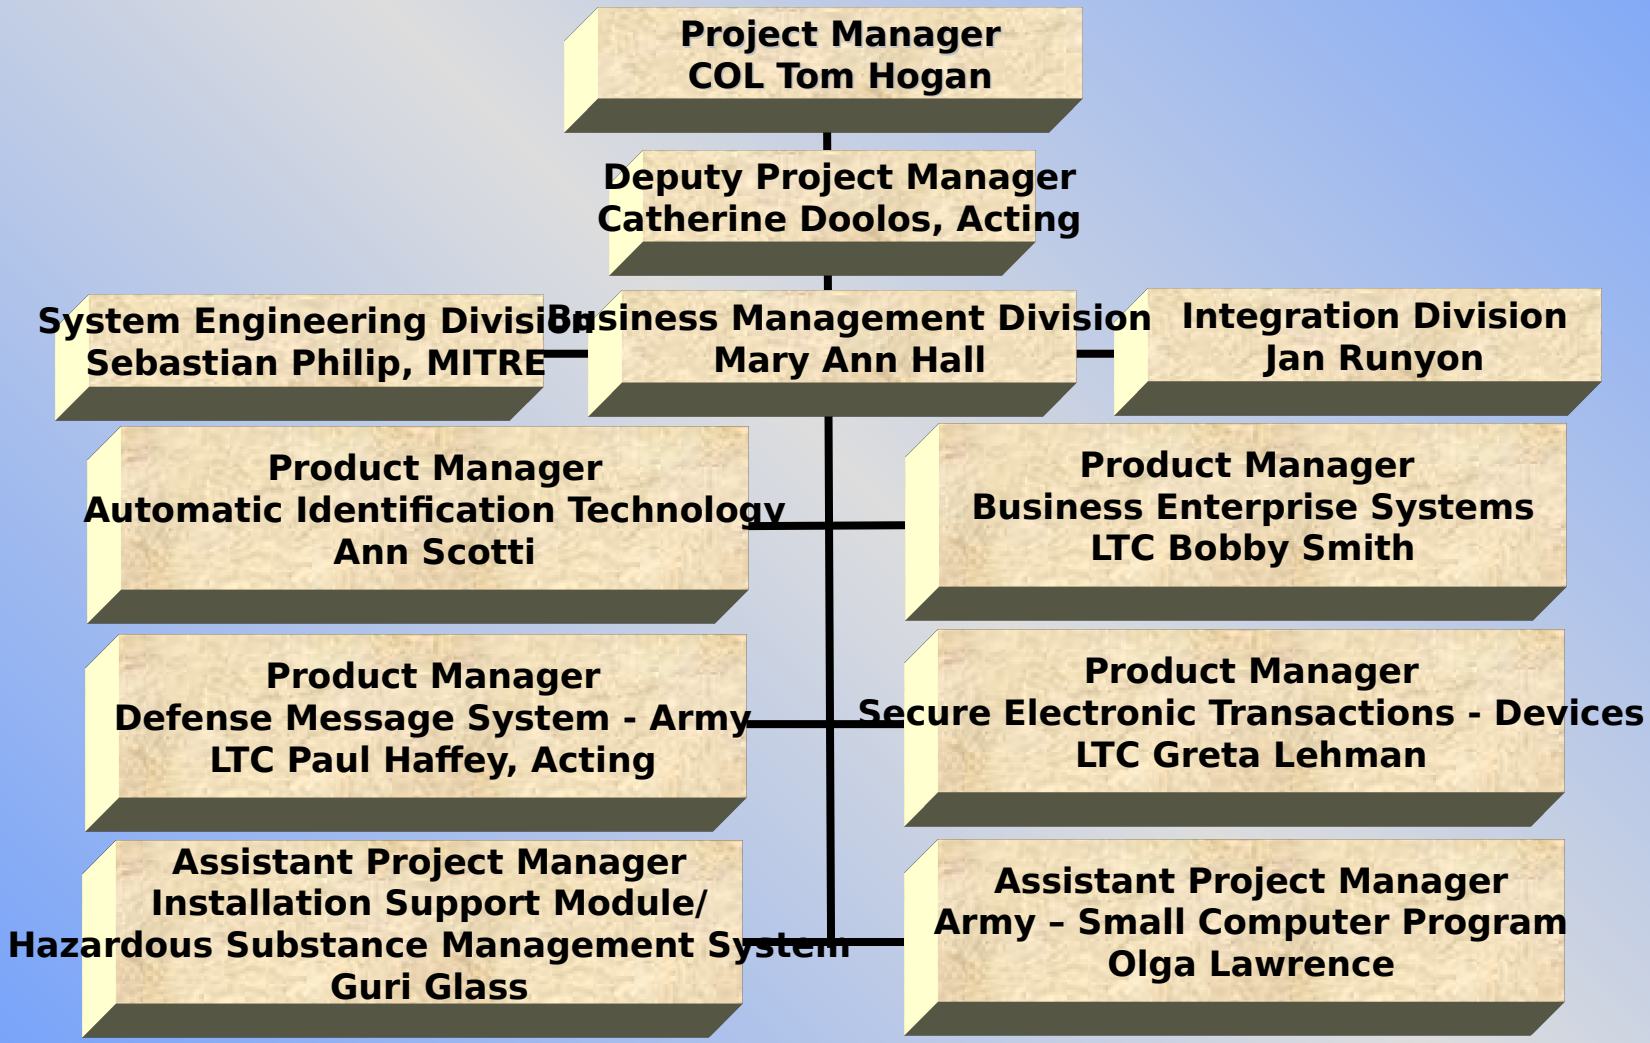
HSMS/ISM

Managing the Infostructure as an Enterprise

Plan, Architect, Design, Field

PEO EIS
PEO Enterprise Information Systems

Organizational Structure



PEO EIS
PEO Enterprise Information Systems

Automatic Identification Technology (AIT)

System Capabilities in Supporting the Warfighter

- Provides focal point for new technology insertion and integration into existing information systems and tactical logistics systems
- Program management, Integration and Customer support
- In Transit Visibility Infrastructure

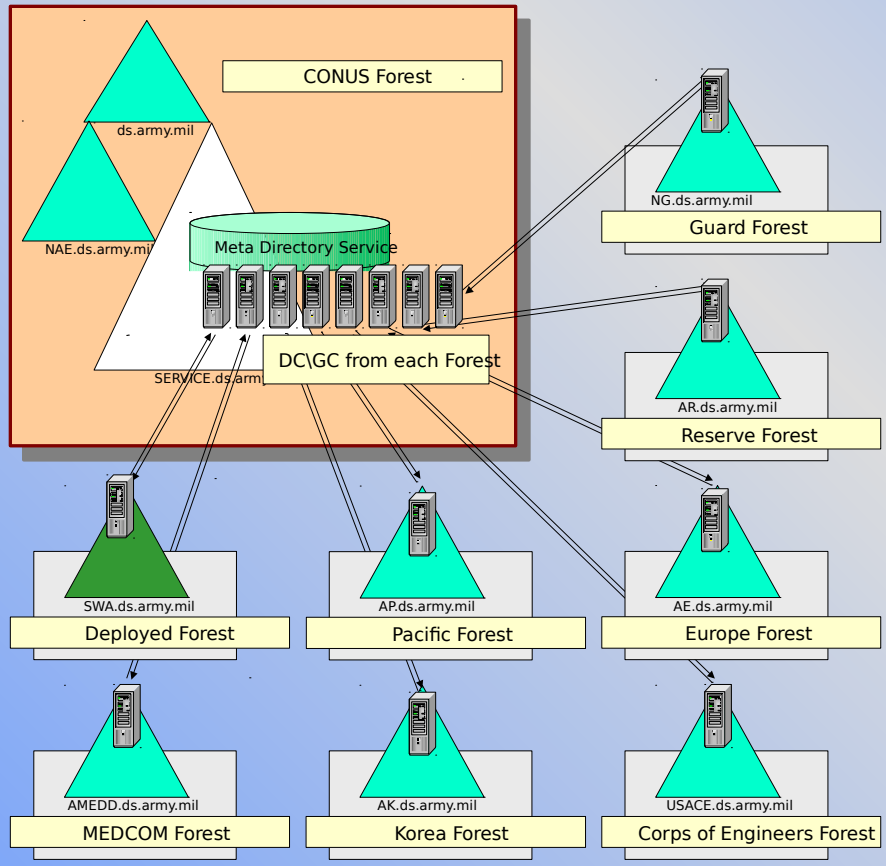
Accomplishments/Milestones

- Developed Wireless Solution and Migration Plan
- Supported NATO and CENTCOM on Asset Tracking
- Developing Radio Frequency Identification (RFID) architecture

Sponsors: G4 (DALO/SM); Assistant Secretary of the Army, Acquisition, Logistics and Technology; CASCOM; J4; HQ AMC/DAEI; LIA

PEO EIS
PEO Enterprise Information Systems

Business Enterprise Systems (BES)



System Capabilities in Supporting the Warfighter

- Working to create a network-centric sustaining base environment to improve decision dominance
- Windows 2K/ Exchange 2K/ Active Directory Architecture

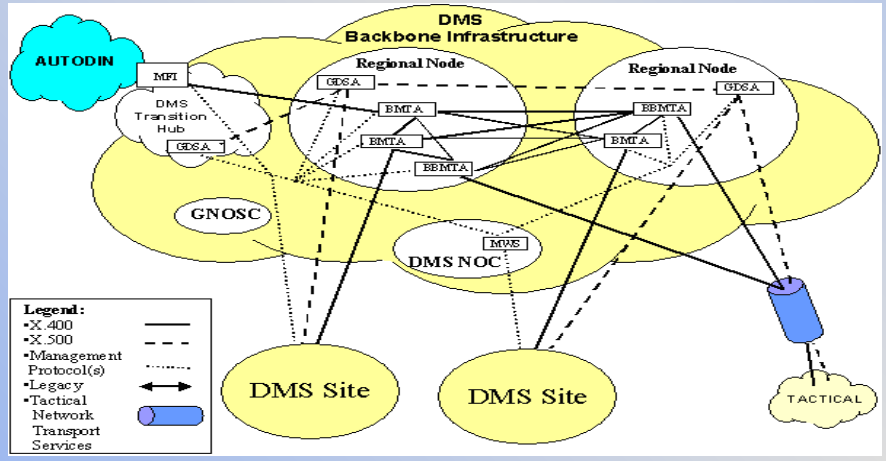
Accomplishments/Milestones

- MDW Implementation Phase I
- Army-wide BCA

Sponsors: CIO/G6; NETCOM; MEDCOM; DOIMs; CECOM/ISEC

PEO EIS
PEO Enterprise Information Systems

Defense Message System-Army (DMS-A)



System Capabilities in Supporting the Warfighter

- Provides a state-of-the-art strategic solution for an interoperable, seamless, and secure writer-to-reader electronic messaging system for strategic or tactically placed organizational users

Accomplishments/Milestones

- Tactical deployment successful - ENDURING FREEDOM
- Meeting AUTODIN closure milestones with DMS 3.0
- TMS early training on track to support AUTODIN closure
- Pentagon Implementation of DMS 3.0

Sponsors: CIO/G6; TRADOC/Signal Center; ASA-ALT; G3; G2; G8; DISA; CECOM/ISEC

PEO Enterprise Information Systems

Secure Electronic Transactions – Devices (SET-D)

System Capabilities in Supporting the Warfighter

- The PM provides the enabling technology that identifies and recognizes Army soldiers, civilians and specified contractors, allowing them to conduct their daily business, with integrity, in a secure peacetime and wartime environment

Accomplishments/Milestones

- CAC Pin Reset (CPR) Testing and Funding
- Biometrics documentation and MOA between PEO and CIO/G6
- Biometrics Demo (Building Access Control)
- CAC Reader (87%) and Middleware Fielding (76%) complete

Sponsors: CIO/G6; USD (P&R) – CAC; ASD (C3I) – PKI; DIAP; NETCOM; IA Directorate; ASD (C3I); EA;BMO; DISA

PEO EIS
PEO Enterprise Information Systems

Army Small Computer Program (ASCP)

System Capabilities in Supporting the Warfighter

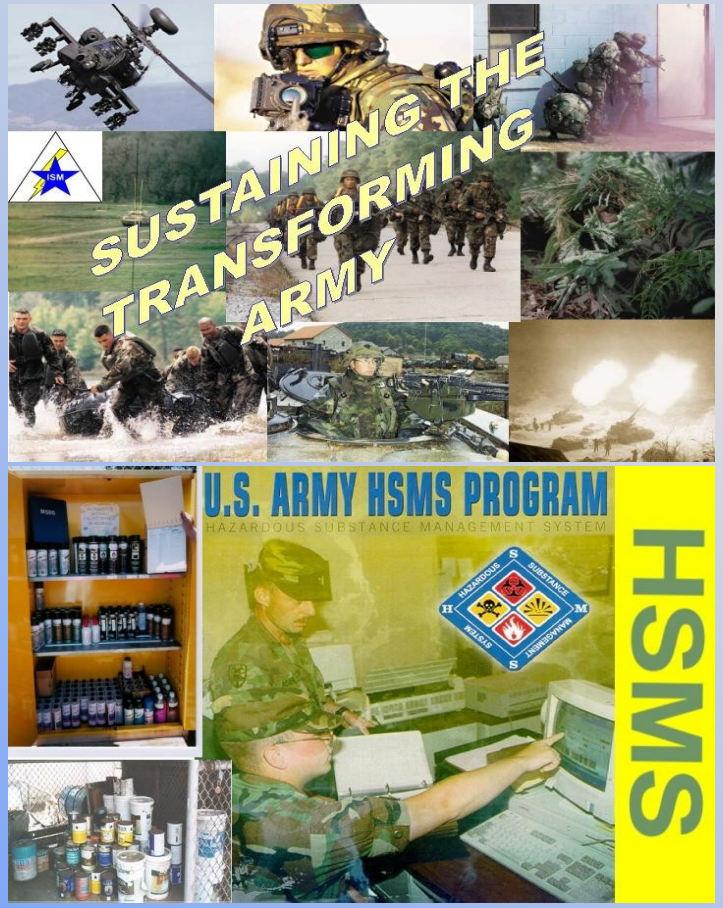
- Provides a full range of Information Technology, Information Technology Infrastructure, and Information Systems (Hardware, Software, Peripherals, Networking, and Infrastructure Support Services)

Accomplishments/Milestones

- FY02 – Best Sales Year Ever - $581.1M
- Transition from AWCF to Direct Funding
- Information Technology Enterprise Solutions (ITES) Award
- Market Place Direct
- Army Business Initiative Council approval – ASCP as Primary Source for Army Commercial IT

Sponsors: CIO/G6; NETCOM; CECOM/ISEC; DOIMs; CTO-AKO; Enterprise Software Initiative; Army Contracting Agency

Hazardous Substance Management System/Installatic Support Module (HSMS/ISM)



System Capabilities in Supporting the Warfighter

ISM

- Applications to automate critical business functions at Army Installations
- Supports Army Transformation
- Improve decision dominance by Army business stewards at installation and higher levels

HSMS

- Tracks hazardous materials on Army Installations from requisition/procurement until used or disposed of as hazardous waste
- Provides visibility of HM inventories

Accomplishments/Milestones

- Install modernized ISM web and application servers – locations TBD
- Fielding of HSMS 2.4.1 to TNOSC and Non-TNOSC sites

Sponsors: CIO/G6; PERSCOM; G3; G4; TRADOC
